

Yolo Community Care Continuum (YCCC) is a nonprofit agency providing a continuum of community based programs and services for individuals experiencing a psychiatric disability. YCCC has provided innovative and compassionate services in Northern California for mental health clients since 1979.

YCCC was founded by a group of parents who wanted a home like environment for their adult children who had been diagnosed with a mental illness that was too severe to be cared for at home. They envisioned a place where their children could receive professional and compassionate treatment in the community where their families could remain together and where their children could live as productive a life as possible. The services developed became a statewide model of mental health care.

Today, YCCC continues to develop innovative and compassionate services in response to client and community needs. YCCC serves approximately 600 individuals each year.

All of YCCC's programs are completely voluntary and the services are consumer driven.

Our Mission

Yolo Community Care Continuum is a nonprofit organization established to better the lives of people with a mental illness through appropriate housing, vocational training, direct services, advocacy and education.

Yolo Community Care Continuum strives to excel as a dynamic presence in our community. Our goal is to provide client driven services which assist people to attain their highest level of mental health possible.

If you would like to visit a Yolo Community Care Continuum program, arrangements should be planned through the Administrative Office. Please schedule at least 48 hours in advance at assist@y3c.org or by phone at 530 758-2160.

YCCC is proud to be a United Way and Combined Federal Campaign certified nonprofit partner. You can donate to YCCC through your employer's payroll deduction.
